# Spline Sockets \_\_\_\_\_

- Snap-on<sup>®</sup> spline wrenching tools have been developed to service high tensile strength spline nuts and bolts widely used on both military and commercial aircraft
- Precise, radial spline teeth engage the fastener teeth over a wider area to minimize stress, and allow application of high torque to reduce risk of damage to the fastener or to the tool

#### AWEF6M6K

#### Combination

#### AWEF6M6K Fractional/Metric Hex Folding Set

- Turn-and-Flip feature eliminates the need for constant removal of tool to reposition it in screw head when working next to obstructions
- 90° stops turn the tool into a speed wrench
- Hex sizes molded into storage case for easy identification of each Hex
- Flutes in storage case allow easy selection
- Access the blades from top or bottom, eliminating the need to unstack the blades
- High-torque steel is 20% stronger and twice the wear resistance of standard grades of steel
- Handle is 40% stronger than steel cases
- Corrosion-resistant finish resists solvents and is five times more corrosion resistant than the competition

**Folding Set and Adjustable Wrench** 

#### Blue-Point<sup>®</sup> Adjustable Wrench GAJS30 *Blue-Point* Adjustable Wrench

- SAE and metric scales on fixed jaw indicate wrench opening
- Fixed jaw and handle are forged in one piece to ensure maximum strength
- Side-adjusting nut style provides smoother operation, allows greater jaw opening and offers minimum jaw play
- Wrench is balanced to minimize wrist stress
- Hole at handle end for tether or hanging

### Ford Diesel Turbo Tools

#### **TAP1225 Turbo Vane Actuator Puller**

- Specially designed for Ford 6.4L turbo diesel to save the technician time
- Compact size fits on or off the truck
- · Self-aligning for easy install
- Remove the actuator link rod from the arm on the turbo of 2008 to 2010 Ford 6.4L Power Stroke diesel engines
- When servicing either the turbo or actuator they must be separated; over time this connection becomes too tight to remove without great force and is easily damaged if pried on
- Leg-type pullers are bulky and hard to use on this spring-loaded arm
- · Simply rotate the arm up, slip the self-centering puller over the arm, and with two wrenches the stud is pushed out of the arm in seconds

#### Injector Hold Down Fastener Tools S6340E TORX® Bit Socket

- This tool kit prevents damage to the axle shaft threads when removing the lock nut
- Unlocks and removes the 30mm axle nuts from Toyota/Lexus vehicles
- Kit combines a 1/2" drive 12-point special depth 30mm impact socket and unique angle axle-nut release tool (patent pending)

#### YA6541 1/2" Drive 30mm Impact Socket YA6542 Lock Nut Release Tool

#### SIMM360TW

- Snap-on<sup>®</sup> sockets using the Flank Drive<sup>®</sup> Wrenching System grip the fastener on the flanks/flats which delivers 15 to 20% more turning power
- Impact sockets are heat-treated to a low hardness range compared to chrome sockets so that under heavy, continuous use, the impact socket will withstand the impact blows and wear rather than break
- The broach depth of our impact sockets will start to thread the nut onto the stud. Competitive sockets have a deeper Hex where the user needs to start the nut by hand
- Thin wall design provides the extra room needed to remove and install the axle nut on a Chevy<sup>®</sup> Sonic

### Wheel Hub Lock Tool

#### WLT1 Wheel Hub Lock Tool

- Eliminates need for assistant to hold brake pedal while axle nuts are removed or installed
- Works on any vehicle with wheel stud bolt patterns ranging from 4mm x 100mm to 8mm x 170mm
- One-piece design with incorporated cushioned grip handle for comfort and ease-of-use
- Can also be used to hold rear differential yoke on solid axle vehicles during pinion seal or bearing service, as well as many other types of machines with drive shafts, yokes and universal joints

Wear safety goggles Use the right tool Use the tool properly Maintain the tool regularly Keep tools away from children Do not use tools on live electrical circuits unless specifically designed for such use Read and follow instructions

Safety messages in this catalog use the guidelines of the American National Standard ANSI Z535.4 for Product Safety Signs and Labels and ANSI Z535.3 Criteria for Safety Symbols. Messages associated with specific products use a triangular hazard alert symbol, signal word (CAUTION, WARNING, DANGER) and how to avoid the hazard. Each message refers to pages (W1 to W4) which provides additional safety symbols and three part messages advising of:

• The hazard **How to avoid the hazard** *The probable consequence of not avoiding the hazard*

#### Warranty for Products

Snap-on Logistics Company, or its assigns, ("Snap-on") warrants to customers who purchase products from authorized Snap-on distribution channels that Snap-on® brand products and Blue-Point® brand products will be free from defects in workmanship and materials for a duration described in each product's warranty code. The warranty duration depends upon the nature of the product. Prior to a product purchase, or if the product information for purchased product does not include a warranty code with the applicable duration, customer can obtain the product warranty code and warranty duration from a Snap-on franchisee or representative. If customer is not serviced by a Snap-on franchisee or representative, then the product warranty code and warranty duration may be obtained by contacting the Snap-on Customer Care Center via telephone at 877-762-7664 or e-mail ncccsupport@snapon.com. Outside North America, contact the closest sales office shown on pages 645-646. Consumable products are warranted, at the time of sale, only against defects in workmanship or materials that prevent their use. Consumable products are goods reasonably expected to be used up or damaged during use, including but not limited to drill bits, saw blades, grinding discs, sanding discs, knife blades, files, 02 sensors and batteries. To the extent permitted by law, this warranty only extends to the original customer and cannot be transferred or assigned.

During the applicable duration of the warranty, at its option, Snap-on will repair or replace its products which fail to give satisfactory service due to defective workmanship or materials, or provide a refund by repaying or crediting customer with an amount equal to the purchase price of such products. Repair, replacement or refund shall be at the election and expense of Snap-on, and is customer's exclusive remedy in place of all other rights and remedies. Any products or parts replaced or for which Snap-on has provided a refund are the property of Snap-on and will not be returned.

To obtain warranty service, return products to a Snap-on franchisee or representative. For customers not serviced by a Snap-on franchisee or representative, contact the Snap-on Customer Care Center via telephone at 877-762-7664 or e-mail ncccsupport@snapon.com. Outside North America, contact the closest sales office shown on pages 645-646. The following information will be required with customer's warranty request: (1) date and proof of purchase, (2) where customer purchased the product, (3) full name, (4) shipping address, (5) phone number, (6) e-mail address, and (7) item number(s) or approximate weight of return package. Warranty requests that do not include all the required information will not be processed. Once the warranty request is validated, the customer will be provided a RGA number and will be sent a shipping label either electronically thru e-mail or thru the U.S. mail, and must ship the product to Snap-on. Upon receipt of the product, the warranty claim will be reviewed and the product will be inspected. If the warranty request is found to be valid, the product will be repaired and returned to the customer or a replacement product or refund will be shipped to the customer. If the warranty claim is found to be invalid, the original product will be returned to the customer. By repairing or replacing a product, or providing a refund, Snap-on does not waive a claim that a product nevertheless has been subject to abnormal use.

If customer chooses not to (1) use a carrier that offers tracking or (2) insure or declare the full value of the product, customer will be responsible for any loss or damage to the product during shipping. Replacement or refund will not be issued unless a valid proof of delivery can be provided.

In addition to any limitations outlined in warranty codes provided with the product, Snap-on does NOT provide any warranty for (1) products labeled other than *Snap-on* or *Blue-Point* or (2) products subjected to "ahnormal use". Products that are not labeled *Snap-on* or *Blue-Point* are subject to the warranty provided by the manufacturers of those products and Snap-on will pass along any such warranties, to the extent that it is permitted to do so, but it is not responsible for warranty services or processing warranty claims. "Abnormal use" includes misuse, accident, modification, unreasonable use, abuse, neglect, lack of maintenance, use in product related service, or use after the product is significantly worn. Abnormal use of tool storage units also includes, without limitation, situations when a unit is pulled using a mechanical vehicle, rolled over large drops, used in a highly corrosive environment, used as a step stool, modified with non-*Snap-on* parts, overloaded or modified in any way.

THE FOREGOING WARRANTY IS IN LIEU OF AND EXCLUDES ALL OTHER WARRANTIES NOT EXPRESSLY SET FORTH HEREIN, WHETHER EXPRESS, IMPLIED OR COLLATERAL, BY OPERATION OF LAW OR OTHERWISE, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Descriptions of product contained in this catalog are for the sole purpose of identifying product and shall not be construed as an express warranty.

LIMITATION OF LIABILITY. SNAP-ON AND ITS AFFILIATED COMPANIES AND THIRD PARTY SUPPLIERS SHALL NOT BE LIABLE FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL LOSSES, COSTS OR DAMAGES INCURRED BY CUSTOMER OR OTHERS, INCLUDING PERSONAL INJURY OR DEATH, DIRECTLY OR INDIRECTLY ARISING FROM THE SALE, HANDLING OR USE OF THE PRODUCTS, OR FROM ANY OTHER CAUSE WITH RESPECT TO THE PRODUCTS OR THE FOREGOING WARRANTY, WHETHER SUCH CLAIM IS BASED UPON BREACH OF CONTRACT, BREACH OF WARRANTY, STRICT LIABILITY IN TORT, NEGLIGENCE OR ANY OTHER LEGAL THEORY (INCLUDING WITHOUT LIMITATION, LOST PROFITS, REVENUES, ANTICIPATED SALES, BUSINESS OPPORTUNITIES, GOODWILL, OR INTERRUPTION OF BUSINESS OR OTHER INJURY OR DAMAGE).

To the extent allowed by applicable law, this warranty and all rights and obligations hereunder shall be governed by and construed in accordance with the laws of the State of Wisconsin, without reference to principles of conflicts of laws. The rights and obligations of the parties hereunder shall not be governed by the 1980 U.N. Convention on Contracts for the International Sale of Goods.

All parts of this warranty apply to the extent permitted by law and unless restricted or prohibited by law. You may have greater rights pursuant to the legislation of your jurisdiction. Any provision which is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability but shall not affect the enforceability of such provision in any other jurisdiction.
